

- N
- o LS 1, the 1st and 2nd Electrics, LS 24, LS 28 and LS 52 (Cyc Electric) are shown at their highest trim position.
 - t The 3 Orchestra Shell ceiling pieces are stored in a tripped position as indicated and are drawn at their highest trim position.
 - e Linesets 1 - 51 are typically (except 21 and 22) on 6" centers, 51 through 66 (except of 60 and 61) are on 1' centers.
 - s: Linesets 1-5 are 100' long, all others are 80' or extendable to 80'.
- The architecture of the 1st Beam limits its use to downlight on the pit and apron.
- Box Booms provide limited shots. In addition the lower half of the 1st Box is blocked when the concert speaker stacks are in use.
